

Energy Sector Objectives, RE Goals, Policies and Strategies

Energy Sector Objectives	RE Goals	RE Policies and Strategies
<p>Ensure sufficient, stable, secure, accessible and reasonably-priced energy supply</p> <p>Pursue cleaner and efficient energy utilization and clean technologies adoption</p> <p>Cultivate strong partnership and collaboration with key partners and stakeholders</p> <p>Empower and protect welfare of various energy publics</p>	<p>Increase RE-based capacity by 100% by 2013</p> <ul style="list-style-type: none"> • Be the number one geothermal energy producer in the world • Be the number one wind energy producer in Southeast Asia • Double hydro capacity by 2013 • Expand contribution of biomass, solar and ocean energy by 131 MW <p>Increase non-power contribution of RE to the energy mix by 10 MMBFOE in the next ten years</p>	<p>Diversify energy mix in favor of indigenous RE resources</p> <p>Promote wide-scale use of RE as alternative fuels and technologies</p> <p>Transform Negros island as a model of RE development and utilization</p> <p>Make the Philippines a manufacturing hub for PV cells to facilitate development of local manufacturing industry for RE equipment and components</p> <p>Encourage greater private sector investments and participation in RE development through market-based incentives</p> <p>Establish responsive market mechanisms for RE-generated power</p> <p>Formulate an effective management program for fuelwood utilization with the view of reducing environmental impact</p>
