

## BUSINESS INVITATION

### Solar PV Business Opportunities and Company Accreditation with the Rural Power Project (RPP)

The Rural Power Project (RPP) of the Department of Energy (DoE) is inviting local companies to consider participating in the Renewable Energy business, particularly solar PV. The RPP promotes the use and commercial development of solar PV through a variety of incentives. The RPP Project Management Office (PMO) set-up within the DoE is encouraging your business participation and accreditation.
