Philippine National Standards and its Importance

Rick S. Infante

ENERGY CONSUMERS AND STAKEHOLDERS' CONFERENCE 2017 THEME: "E-Power Mo! Smart Energy Utilization Forum and Stakeholders Conference"

> 29 November 2017 Fontana Hot Spring Leisure Parks Clark Freeport Zone, Pampanga.

Presentation Outline

- I. Overview of the Downstream Oil Industry Fuel Supply Chain
- II. Mandate on Standard Setting
- III. Development of Standards
- IV. Enforcement of Standards
- V. Roadmap on Fuel Quality

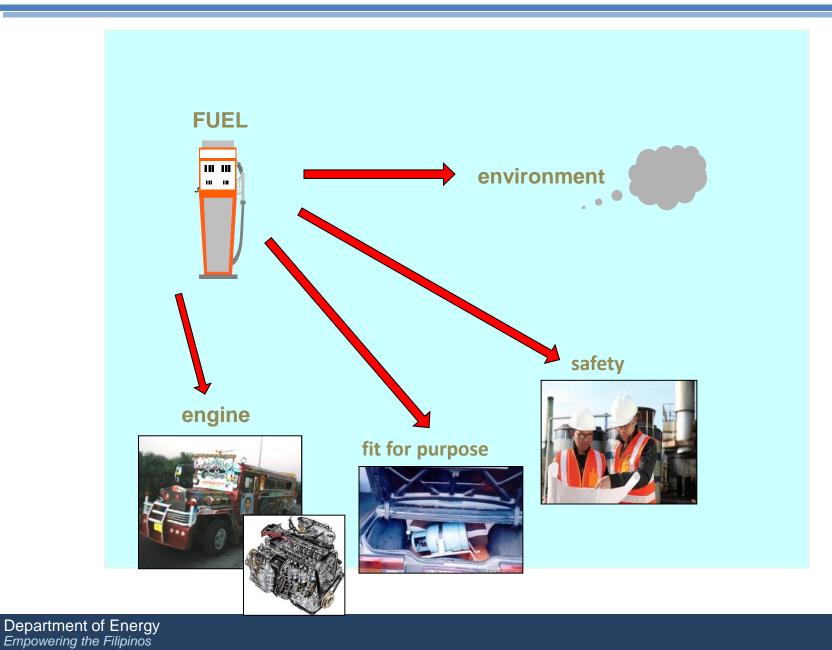

... Standards are more that just one means of regulating

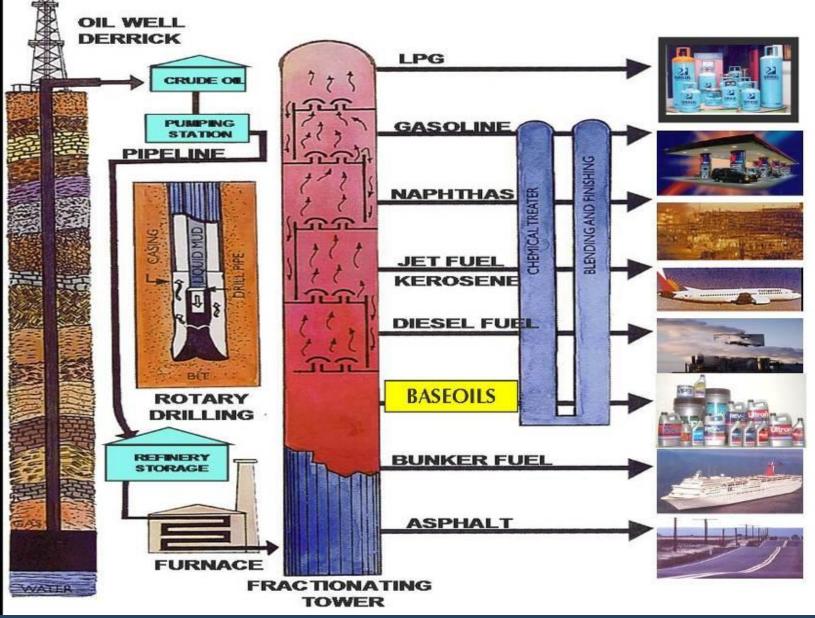

Importance of Fuel Quality

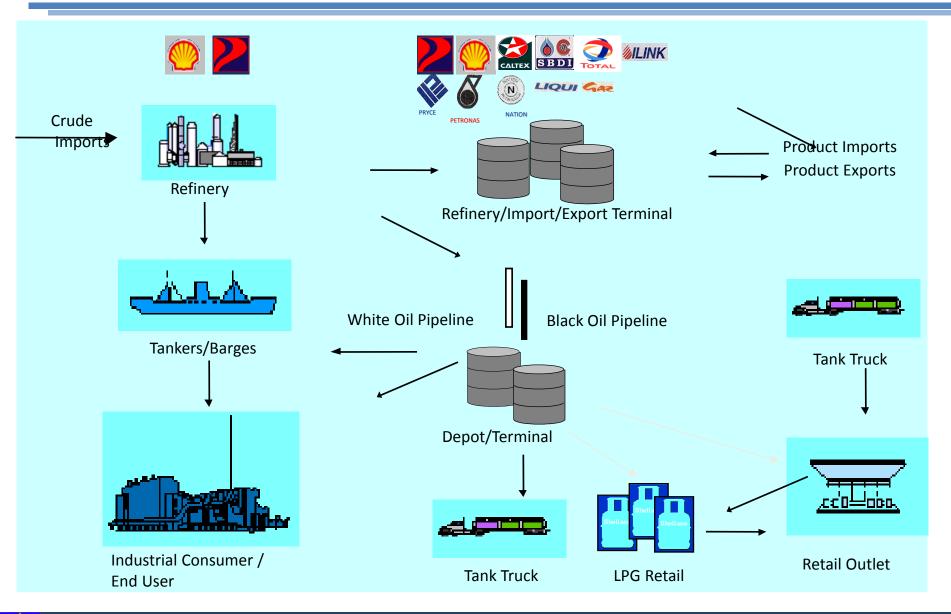

PETROLEUM REFINING

Department of Energy Empowering the Filipinos

Downstream Sector/ Local Supply Chain

Standardization Mandate

I. RA 8479 - Downstream Oil Industry Deregulation Act

- ensure a truly competitive market for petroleum products under a regime of fair price, adequate and continuous supply of environmentally, clean and high quality petroleum products
- > Use of clean and safe (environment and worker-benign) technologies

II. RA 8749 - Clean Air Act of 1999

- set the specifications for all types of fuel and fuel-related products (Sec.26)
- set every two (2) years or thereafter or as the need arises, the specification of ULG and diesels shall be reviewed and revised (Sec. 26)

III. RA 9367 - Biofuels Act of 2006

establish technical fuel quality standards for biofuels and biofuelblended gasoline and diesel which comply with the PNS (Sec. 7c)

Standardization Technical Committees

1. Technical Committee on Petroleum Products & Additives (TCPPA)

Chairs

Members

- Government
- Fuel Sector
- Engine Suppliers / Manufacturers :
- Consumer Sector /
 - NGO :
- > Academe :

DOE and DENR

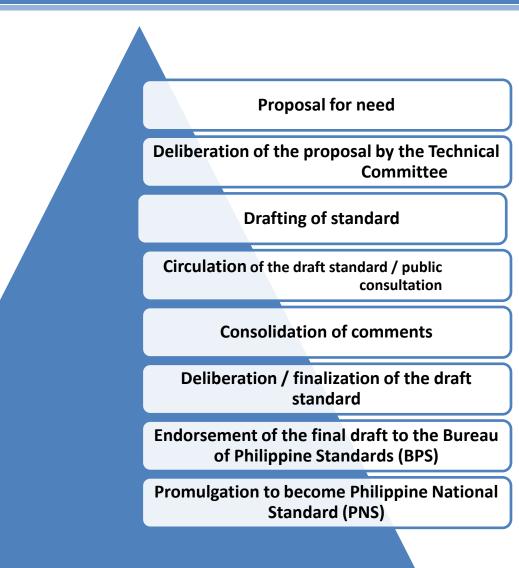

DOE, DENR, BPS-DTI, ITDI-DOST Petron, Shell, Chevron, PIP, IPPCA

CAMPI, AMMDA, MDPPA

FilCar Foundation, AWMA UP-NCTS, AIPSI

Standard Development Process

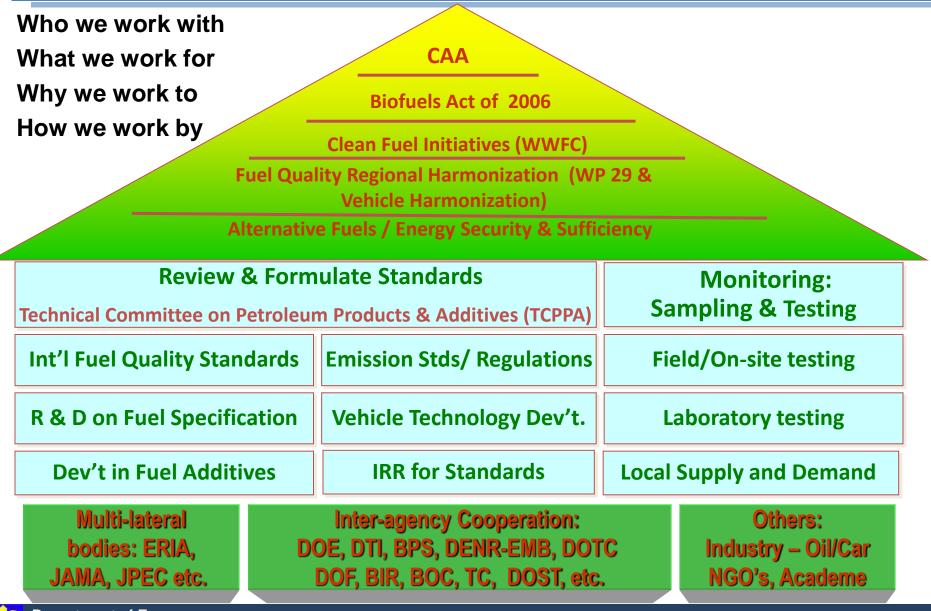

Elements of PNS Development

- Minimum requirement
- Local condition
- Reference based
- Technically based
- Multi-sectoral
- Consultative
- Dynamic
- Regulatory

Fuel Quality Standard Development

Fuel Quality Standards Development (Gasoline)

	GASOLINE (E0)				E-GASOLINE (E10)				
	CLEAN AIR ACT			POST CLEAN AIR ACT		BIOFUELS ACT			
								E10	EURO 4-PH
PROPERTY	2000	2000 2001 ^a 2003 2005 2009 2006 2009		2009	2012				
Distillation temperature, 0C at:									
10% recovered, max	70	70	70	70	70	70	70	70	70
50% recovered	75-121	75-121	75-121	75-121	75-121	70-110	70-110	70-110	70-110
90% recovered, max	180	180	180	180	180	180	180	180	180
End point, max	221	221	221	221	221	215	215	215	215
Residue, % vol., max.	2	2	2	2	2	2	2	2	2
Hydrocarbons:									
Alcohols (C ₂ to C ₄), % vol., max. ^b	10	10	10	10	0.4	9.5-10	9.0-10	9.0-10	9.0-10
Aromatics, % vol., max.	45	45	35	35	35	35	35	35	35
Benzene, % vol., max.	4	4	2	2	2	2	2	2	2
Ethers (e.g. MTBE), % vol., max.	10	10	10	2 °	2 °			2 °	2 °
Lead Content, g/L, max.	0.013	0.013	0.013	0.005	0.005	0.005	0.005	0.005	0.005
Octane rating, min.									
Research Octane Number (RON)	93	81/87/ 93/95	81/87/ 93/95	81/93/ 95	81/93/ 95	93	93/95	91/95/ 97	91/95/97
Anti-Knock Index (AKI)	87.5	87.5	87.5	87.5	87.5	87.5	87.5	87.5	87.5
Vapor Pressure, @ 37.80C, kPa, max.	62	85/62	85/62	85/62	85/62	62	62	68/62	68/62
Sulfur, % mass, max.	0.10	0.2/0.1	0.2/0.1	0.05	0.05	0.5	0.05	0.05	0.005

^a multi-grade gasoline ^b ethanol ^c allowable contamination tolerance only. Intentional addition not permitted for both imported and locally-produced gasoline

Note: E10 standards also provide minimum reference specifications for base gasoline.

Fuel Quality Standards Development (Automotive Diesel)

	CLEAN AIR ACT				BIOFUELS ACT

Note: FAME blended diesel oils also provide minimum reference specifications for base diesel

Fuel Quality Standards Developed

A. Biofuels & Blends:

- PNS/DOE QS 008:2012
- PNS/DOE QS 004:2012 (B2)
- PNS/DOE QS 007:2014 Bioethanol Fuel (E100 E98)
- PNS/DOE QS 002:2015 (B100)
- PNS/DOE QS 010:2015 Oils (B5)

B. Conventional Petroleum, etc.

- PNS/DOE QS 001:2009
- PNS/DOE QS 003:2003 Oils
- PNS/DOE QS 005:2016
- PNS/DOE QS 012:2016
- PNS/DOE QS 006:2005
- PNS/DOE QS 009:2007
- PNS/DOE ASTM D 910:2010

- E-Gasoline (E10)
- **FAME-Blended Diesel Oils**
- Anhydrous Bioethanol &
- **Coconut Methyl Ester**
- High FAME-Blended Diesel

Unleaded Motor Gasoline

- Two-stroke (2T) Lubricating
- LPG as Non-Motor Fuel
- LPG as Motor Fuel
- Fuel Oils (Bunker)
- Kerosene
 - AvGas Grade 100

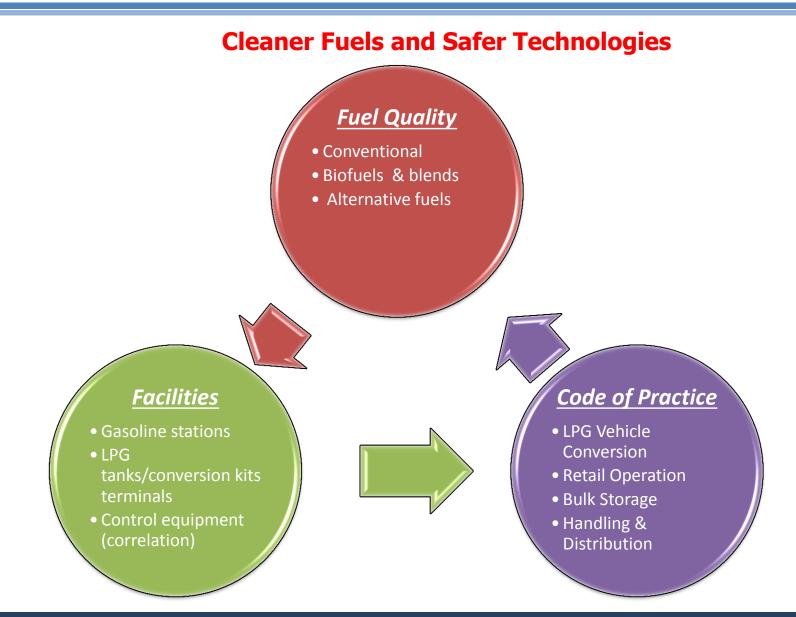

Fuel Quality Standards Developed

A. Test Methods

- PNS/DOE TM 01 :2015 (update 2009) in Fatty Acid by Gas Chromatography
- Determination of Ester and Lauric Acid Content Methyl Esters (FAME)
- PNS/DOE TM 02 :2009 from FAME-Liquid Adsorption Chromatography and Characterization by Gas Chromatography
- Separation of Fatty Acid Methyl Esters (FAME) Blended Diesel Oils by

Standards Harmonization in Downstream Petroleum Industry

Standardization Technical Committees

- PNS/DOE FS 6:2011 Outlet
- PNS/DOE FS 7:2011
- PNS/DOE FS 8:2009
 Pipeline (on-going)
- PNS/DOE FS 9:2015

- Health, Safety and Environment
- Under ground Storage Tank
- Piping System
 - **Dispensing Pumps**
- LPG Refiling Plant General Requirement
- Auto-LPG Dispensing Station (update/review)
- Auto-LPG Dispensing Stations
- Liquid Petroleum Product (LPP) Depot
 - Storing and Handling of CME and CMEin LPP Depot
 - Storing and Handling of E-Gasoline in Retail
 - Storing and Handling of B5 in Retail Outlet
 - Transportation of Petroleum Product by
 - Code of Safety Practice in Auto-LPG Dispensing Station

On-going Standards Development (DPNS)

Fuel Quality Standards

- A. E10 & B2 update/review of 2012 spec*
 - DPNS/DOE QS 008:2017 E-Gasoline specification (E10)
 - DPNS/DOE QS 004:2017 CME-Blended Automotive Diesel Oil (ADO)
 - DPNS/DOE QS 013:2017 CME-Blended Industrial Diesel Oil (IDO)

Facilities Standards

A. PNS/DOE FS 10 :2017 - Code of Safety Practices for LPP in Retail Outlet (new)

> *(endorsed to BPS and awaiting for adoption and promulgation as PNS)

- B. Code of Safety Practices for an LPG Refilling Plant (new)
 - Part 1 Tank Truck & Lorry Entry Procedure
 - Part 2 Cylinder Refilling Procedure
 - Part 3 LPG Cylinders Housekeeping and Preventive Maintenance
 - Part 4 Fire Drill & Marshalls
 - Part 5 Personnel Training
 - (Part 1, 2 & 3 endorsed to office of the Secretary / Part 4 & 5 on-going deliberation)
- C. DPNS/FS 2:2017: LPG Refilling Plant (review/update of 2006)

- Most PNS for fuel that is promulgated is being implemented through the issuance of a corresponding policy regulation in the form of Department Circular (DC).
 - mandatory compliance by concerned industry players
- PNS for facilities at the moment is not mandatory, hence no DC is issued

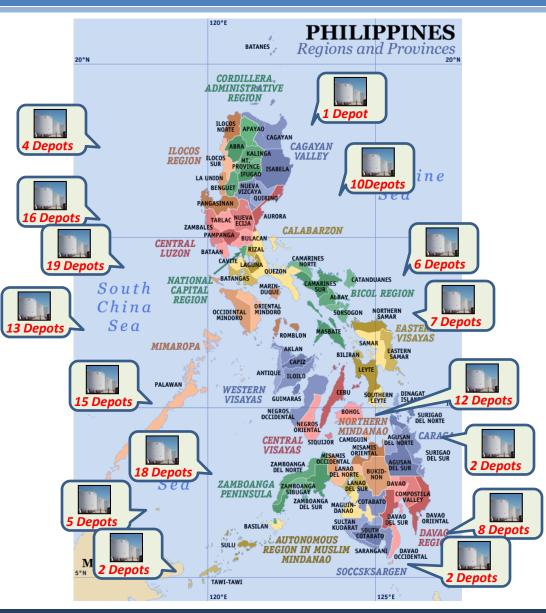

Enforcement of PNS

- Product sampling and facility check
 - > oil refineries
 - > import terminals / bulk plants
 - > gas stations
 - biofuel plants
- Sampling
 - frequency at least once a year inspected for major facilities nationwide
- Testing for PNS compliance
 - laboratory
 - Mobile lab
- Inter-lab correlation
- Administrative actions
 - > Fines and penalties for violations
 - > Feedback to companies
 - With violations require corrective measures and reports
 - W/o violations issue "Clean Bill of Health"
